We now target a CET1 ratio of around 13%, reflecting solid capital position and strong capital generation

CET1 target vs minimum CET1 requirement, % RWA

Key drivers of the CET1 target ratio moving from 13-14% range

- Strong, consistent profitability with track record of capital generation and high-teens ROTE
- Capital requirements approaching steady state, following significant regulatory change, further benefits expected post Basel 3.1
- RWA trajectory driven by balance sheet growth
- 2025 Bank of England Stress Test demonstrates significant improvement, with NatWest Group having the lowest CET1 drawdown among UK peers, with no strategic management actions required¹

Outlook statements¹

Based on our current macroeconomic assumptions, we expect

In 2026² we expect:

- Total income excluding notable items in the range of £17.2-17.6 billion.
- Operating expenses, excluding litigation and conduct costs, around £8.2 billion.
- Loan impairment rate below 25 basis points.
- Return on Tangible Equity greater than 17%.
- Capital generation pre-distributions around 200 basis points.

In 2028 we expect:

- Customer assets and liabilities³ to grow at a compound annual rate of greater than 4% from the end 2025 to end 2028.
- Cost:income ratio, excluding litigation and conduct costs, below 45%.
- Return on Tangible Equity greater than 18%.
- Capital generation pre-distributions of greater than 200 basis points.

Capital:

- We now target a CET1 ratio of around 13.0%.
- We continue to expect to pay ordinary dividends of around 50% of attributable profit and will consider buybacks as appropriate.
- We expect Basel 3.1 to increase RWAs by around £10 billion on 1 January 2027

2025 Bank Capital Stress Test results reflect a robust balance sheet and a solid capital position

The continued strengthening of our balance sheet, demonstrated by the lowest CET1 drawdown compared to previous Stress Tests, underpins our ability to support our customers and the broader economy

NatWest has the lowest projected CET1 drawdown in the 2025 stress scenario and is the only UK bank with no strategic management actions required¹

Sustainability: Supporting the Climate Transition

Progress against our ambitions & targets:

We have an ambition to be net zero by 2050 across our financed emissions, AUM and operational value chain. Our climate-related ambitions and targets⁽¹⁾ enable us to focus on actions we can take to succeed with our customers and deliver sustainable shareholder value

Climate and sustainable funding and financing⁽²⁾ £110.3bn provided between 1 July 2021 and 30 June 2025	In 2025, we exceeded our target to provide £100 billion in climate and sustainable funding and financing between 1 July 2021 and the end of 2025	Weighted average carbon intensity (WACI)⁽⁴⁾ 43% reduction (2024: 34%)	We aim to reduce the WACI of our Managed Assets by 50% by 2030 against a 2019 baseline
Climate and transition finance⁽²⁾ £19.0bn provided between 1 July 2025 and 31 December 2025	We have a target to provide £200 billion in climate and transition finance between 1 July 2025 and the end of 2030	Climate impact of our financing activity against a 2019 baseline⁽⁵⁾ 39% reduction (2024: 33%) Portfolios aligned to decarbonisation convergence pathways⁽⁶⁾: 6 out of 9	We have an ambition to at least halve the climate impact of our financing activity by 2030, against a 2019 baseline, supported by portfolio-level, activity-based targets
Operational emissions⁽³⁾ Scope 1 and Scope 2 66% reduction against a 2019 baseline (2024: 60%)	We have an ambition to reduce emissions for our operational value chain, against a 2019 baseline by: reducing Scope 1 and Scope 2 emissions by 70% by 2030, while continuing to consume 100% renewable electricity in our direct own global operations	Homes in our UK residential mortgage portfolio rated at EPC C or better, where EPCs are available, as at 31 December 2025 48.8% (2024: 46.3%)	We have an ambition for 50% of our UK residential mortgage portfolio to have an EPC rating of C or better by 2030, where EPCs are available
Operational emissions⁽³⁾ Scope 3 47% reduction against a 2019 baseline (2024: 44%)	We have an ambition to reduce emissions for our operational value chain, against a 2019 baseline by: reducing Scope 3 emissions by 50% by 2030	Exposure to coal customers remained in line with the prior year £0.6bn	We have an ambition to phase-out of coal ⁽⁷⁾ for customers who have coal production, coal-fired generation and coal-related infrastructure globally by 1 January 2030

Slide 60 1. For details on dependencies applicable to and reliance on our climate and sustainability-related ambitions, targets and commitments, refer to 'Climate and sustainability-related risks', 'Additional cautionary statement regarding climate and sustainability-related data, metrics and forward-looking statements', and 'Cautionary statements in relation to the climate and sustainability related disclosures' on pages 420 to 422, 429 and 430 of the NatWest Group plc 2025 Annual Report and Accounts. (2) Climate and sustainable funding and financing (as defined in our [Climate and Sustainable Finance Inclusion Criteria](#)) and climate and transition finance (as defined in our [Climate and Transition Finance Framework](#)) represent only a relatively small proportion of our overall funding, financing and facilitation activities. (3) Our operational emissions comprise greenhouse gas emissions Scopes 1, 2 and 3 (categories 1–14, excluding categories 8, 10 and 14) and does not include Scope 3 category 15 financed emissions. The reporting year runs from 1 October to 30 September. (4) Our WACI ambition includes listed equity and corporate fixed income asset classes. We consider Managed Assets (those assets we invest on our customers' behalf, which represented 81% of AUM as at 31 December 2025) to be in-scope for our WACI ambition. Due to improved data sourcing, current WACI measurement includes additional data for government bond asset classes and Bespoke portfolios. Our WACI ambition applies to equity and corporate fixed income assets only. (5) Scope 3 category 15 financed emissions (customer Scope 1 and 2) from lending and investments, refer to page 54 of the NatWest Group plc 2025 Annual Report and Accounts. Estimated financed emissions are reported as at 31 December 2024. Our financing activity may result in a non-linear emissions profile, both within and across sectors. (6) Based on 2024 emissions, reflecting the nine portfolio-level activity-based targets for which convergence pathways have been developed with reference to external scenarios. A 2023 comparative is not provided as these are new targets. In general, year-on-year fluctuations in convergence status are expected as the availability of customer emissions data improves and methodologies are refined. (7) The phase-out of coal refers to the exit of the customer relationship by NatWest Group. This relates to all grades of thermal coal (e.g. bituminous, sub-bituminous, and lignite) typically used as a fuel for coal-fired generation. Data challenges, particularly the lack of granular customer information, create challenges in identifying customers with 'coal-related infrastructure' and other customers with coal-related operations within NatWest Group's large and diversified customer portfolios. As such, the scope excludes (i) companies who generate less than 5% of their revenues via coal related activity (in line with the UN Environment Programme Finance Initiative (UNEP FI) guidance for climate target setting for banks), (ii) companies with a turnover of <£50 million, and (iii) commodity traders. Metallurgical coal is excluded from scope.

Forward-looking statements

The guidance, targets, expectations and trends discussed in this presentation represent NatWest Group management's current expectations and are subject to change, including as a result of the factors described in the "Risk Factors" in the NatWest Group plc 2025 Annual Report and Accounts on Form 20-F.

Cautionary statement regarding forward-looking statements

This presentation may include forward-looking statements within the meaning of the United States Private Securities Litigation Reform Act of 1995, such as statements with respect to NatWest Group's financial condition, results of operations and business, including its strategic priorities, financial, investment and capital targets, and climate and sustainability-related targets, commitments and ambitions described herein. Statements that are not historical facts, including statements about NatWest Group's beliefs and expectations, are forward-looking statements. Words, such as 'expect', 'estimate', 'project', 'anticipate', 'commit', 'believe', 'should', 'intend', 'will', 'plan', 'could', 'target', 'goal', 'objective', 'may', 'outlook', 'prospects' and similar expressions or variations on these expressions are intended to identify forward-looking statements. In particular, this presentation may include forward-looking statements relating, but not limited to: NatWest Group's outlook, guidance and targets (including in relation to RoTE, total income, other operating expenses, loan impairment rate, CET1 ratio, RWA levels, payment of dividends and participation in directed buybacks), its financial position, profitability and financial performance, the implementation of its strategy, its access to adequate sources of liquidity and funding, its regulatory capital position and related requirements, its impairment losses and credit exposures under certain specified scenarios, substantial regulation and oversight, ongoing legal, regulatory and governmental actions and investigations. Forward-looking statements are subject to a number of risks and uncertainties that might cause actual results and performance to differ materially from any expected future results or performance expressed or implied by the forward-looking statements. Factors that could cause or contribute to differences in current expectations include, but are not limited to, future growth initiatives (including acquisitions, joint ventures and strategic partnerships), the outcome of legal, regulatory and governmental actions and investigations, the level and extent of future impairments and write-downs, legislative, political, fiscal and regulatory developments, accounting standards, competitive conditions, technological developments such as artificial intelligence, interest and exchange rate fluctuations, general economic and political conditions and uncertainties, exposure to third party risk, operational risk, conduct risk, cyber, data and IT risk, financial crime risk, key person risk and credit rating risk and the impact of climate and sustainability-related risks and the transitioning to a net zero economy. These and other factors, risks and uncertainties that may impact any forward-looking statement or NatWest Group plc's actual results are discussed in NatWest Group plc's 2025 Annual Report and Accounts on Form 20-F, and its other public filings. The forward-looking statements contained in this presentation speak only as of the date of this presentation and NatWest Group plc does not assume or undertake any obligation or responsibility to update any of the forward-looking statements contained in this presentation, whether as a result of new information, future events or otherwise, except to the extent legally required.

Caution on climate and sustainability-related metrics. The processes we have adopted to define, collect and report data on our climate and sustainability-related performance, as well as the associated metrics and disclosures in this document, are not subject to the same formal processes adopted for financial reporting in accordance with established reporting standards. They involve a higher degree of judgement, assumptions and estimates, including in relation to the classification of climate and sustainability-related (including social, sustainability, sustainability-linked, green, climate and transition) funding, financing and facilitation activities, than is required for our reporting of historical financial information prepared in accordance with established reporting standards. As a result, climate and sustainability-related disclosures may be amended, updated or restated over time. However, NatWest Group does not undertake to restate prior disclosures except where required by applicable law or regulation, even if subsequently available data or methodologies differ from those used at the time of the original disclosure. Refer to the cautionary statement in the section entitled 'Additional cautionary statement regarding climate and sustainability-related data, metrics and forward-looking statement' of the NatWest Group plc 2025 Annual Report and Accounts.

Caution about sustainability-related funding, financing and facilitation. Sustainability-related (including social, sustainability, sustainability-linked, green, climate, transition) funding, financing and facilitation currently represents only a relatively small proportion of NatWest Group's overall funding, financing and facilitation activities. Accordingly, disclosures relating to sustainability-related funding, financing and facilitation should be read in the context of NatWest Group's broader balance sheet, risk profile and funding, financing and facilitation activities, and should not be interpreted as indicative of NatWest Group's overall funding, financing or facilitation strategy.
